## It's not you. It's your floats.

Like most groundbreaking companies that changed the world, (Google, Space-X, Hot Pockets, etc.)

Float Factory set out to solve a simple, yet insurmountable problem: To end boring days in the water.

Swans, Pizza Slices, Unicorns..... How much longer must we be forced to conform to mediocre water toys?

Humanity was ready for change, and no one was doing anything about it..... Until now.

Realizing that this was their higher calling, our founders, Patrick and Tommy, immediately quit their cushy corporate jobs and chose to focus on nothing but solving this crisis. They decided to wage war on pathetic and lame water toys and traded in their business suits for bathing suits..... (Yes, it was legendary.)

They received all the standard advice from their biggest supporters...

"You're absolutely out of your mind." - Financial advisor

"You're doing what!?" - Ex-Boss

"You can do anything you set your mind to." - Mom

"It's impossible, you'll need an MBA." - Everyone else.

Despite the overwhelming support, they knew they had to follow their dream, and against all odds, Float Factory was born.

Not the heroes we wanted, but the heroes we deserve.

Welcome to #FloatNation, where no float is too crazy, and everyone has the chance to be a kid again.

How will you float with us?

**PS. - PLEASE SEND ALL YOUR ABSOLUTELY MOST RIDICULOUS IDEAS TO OUR NUMBER ONE EMPLOYEE AND LARGEST SUPPORTER: MOM@FLOATFACTORY.CO**

# INSTRUCTIONS ON HOW TO INSERT AND SHOOT

## STEP 1

Unfold your Punisher onto a flat surface and bask in all of its uninflated glory. In moments, your life will never be the same.

## STEP 2

Using our Float Factory Air Pump, (sold separately), a hair dryer with cool air, or an inflation device of your choice. Inflate the lower air chamber located at the base of the punisher. Ensure the valve is tightly sealed once inflated.

## STEP 3

**\*IMPORTANT\*** Before inflating the upper chamber of your Pool Punisher, insert your Punish Pumper (with disk unattached) into the un-inflated blast chamber. Once fully inserted, connect the disk by twisting the grooves in a clockwise motion.

## STEP 4

Inflate the upper air chamber of your punisher and ensure it is tightly sealed. Don't forget to inflate the seat air chamber for optimal comfort.

## STEP 5

Feed the Punish Pumper hose into center port between the leg ports until fully submerged.

## STEP 6

Place your Punisher in its aquatic battlefield and enter through the top opening. Insert legs in their corresponding ports for optimal comfort and maneuverability.

## STEP 7

To launch water, pull the handle of the Punish Pumper backward to draw water in, then push forward to blast a massive stream of water at your opponents.

CLASSIFIED

# PRO TIPS & DO NOT LIST

For an optimal blast stream be sure to always draw your Punish Pumper back and forth in a steady motion.

Use the upper air chamber as your shield against other punishers in the water. Duck, dive, dip, and dodge!

Try a tandem ride! The Pool Punisher can hold up to 300 lbs. Grab your significant other or kids and dominate the pool as a team!

Bend your punish pumper handle while drawing in water.

Enter into a Pool Punisher while uninflated.

Pack in more than 2 people in your punisher.

**NO PROTECTION AGAINST DROWNING!  
THIS IS NOT A LIFESAVING DEVICE!**

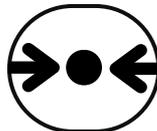

Failure to follow all Warnings, Prohibitions, Mandatory Actions, and Instructions throughout this manual can result in serious injury or death. Read the entire owner's manual prior to using your Float Factory Inflatable.

**WARNING!**

NOT a lifesaving device. NO PROTECTION against drowning.

DO NOT over inflate. See inflation instructions for proper inflation technique.

Risk of getting entrapped if size is not appropriate.

Only to be used in water where the child is within its depth & under adult supervision.

Not for children under the age of 5 years old. NEVER leave children unattended.

To be inflated by an adult. Can be dangerous if not correctly inflated.

Do not use in offshore wind.

Do not use in offshore current.

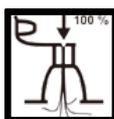

Do not use in whitewater.

Do not use in breaking waves.

Read instructions first. Please read this entire instruction manual prior to enjoying your Float Factory Inflatable.

Completely inflate each air chamber. Open all air chambers fully prior to inflation. See inflation instruction section for proper technique.

Float Factory Inflatables are intended for use by one person at a time, unless otherwise noted on the inflatable and the inflatable's box.

Max load capacity is 300 pounds or 136 kilograms for per inflatable.

Maintain a safe distance to shore of 6 feet or 2 meters. Please remember Float Factory inflatables are for swimmers only and should NEVER be used in offshore wind or current.

All Float Factory floats require balancing by the user.
